

**Get more information about COVID-19 test kits,  
including reimbursement.**

**Starting January 15, 2022, The Archdiocese of Atlanta Group Health Plan will cover FDA-authorized at-home COVID-19 test kits at no cost, up to \$12 per test through our pharmacy benefit.**

Here are a few helpful things to know:

- Each covered member can be reimbursed for up to 8 COVID-19 at-home tests per month (without a prescription).
- You can purchase FDA-authorized COVID-19 test kits at Walmart and RiteAid at no cost to you. You will not need to submit a reimbursement form. Simply go to the pharmacy counter, present your member ID card and ask to have the product submitted to OptumRx.
- If you do not use one of the pharmacies listed above, keep your receipts and the name of your at-home test kit(s). You'll need that information to submit a request for reimbursement.
